SURFACES

You can find more materials, colours and decors with which you can give the surfaces of your Coco bathroom furniture an individual design in the product appendix, which starts on page 103.

WELL POSITIONED

When it comes to the bathroom accessories, too, an interplay of geometric shapes – here with white vases in a matt look – enlivens every bathroom.

Coco solves the storage space question masterfully. Whether open, closed, wall-hanging or standing storage surfaces – there is a perfect, attractive solution for all requirements. This is also supported by the rounded, black profile strips at the base and the complementary accessories, such as the elegant hand towel holder or the inviting storage bench.

Coco achieves visual clarity with finesse with purposefully playful accents on surfaces, fronts and veneer grain. The fronts are available in high-gloss, matt or a naturally soft finish veneer. And here, the consciously contrasting arranged grain of the drawers produces a playful, charming style statement.
